The WICHE Student Exchange Programs

STATISTICAL REPORT
Academic Year 1986-87

WICHE

Improving Education In The West

WICHE AND STUDENT EXCHANGE

For the academic year 1986-87, this report presents statistical information concerning five student exchange mechanisms through which nearly 1,950 residents in 14 WICHE states attend certain undergraduate, graduate, and professional programs not available in their home states, at reduced levels of tuition.

Programs to encourage and assist sharing of facilities and education programs among the states underlay the initiative in 13 western states and territories in creating, early in the 1950s, the Western Regional Education Compact and with it, the Western Interstate Commission for Higher Education (WICHE). Within the founding group the territories of Hawaii and Alaska subsequently achieved statehood, and the group was augmented in 1985 by the affiliation of North Dakota.

The Professional Student Exchange Program is the oldest and largest of the WICHE exchange programs. Students pay resident tuition (one-third of regular tuition in private institutions) and the sending states pay an additional "support fee" established by WICHE. The program was initiated in medicine, dentistry and veterinary medicine. Over the years since the program began in 1953, the three initial fields have been expanded to 16. In 1986-87, 1,245 students are enrolled in 114 programs in 59 public and private institutions in and outside the region; support fees aggregating $12,503,231 are paid through WICHE to the receiving institutions.

The Western Regional Graduate Programs came into operation in 1981, extending tuition reciprocity initially in five and ultimately (fall 1987) in 13 cooperating states (all except California) in designated graduate programs. Programs are nominated by the sponsoring institutions and chosen after an extensive review intended to assure that the programs are distinctive. Students pay resident tuition. There is no supplementary support fee payment in this program. Student participation has grown slowly, as the number of participating states and institutions has also grown. In 1986-87, 80 new and 54 continuing students are participating in the Western Regional Graduate Programs in 12 states and 32 institutions.

The Community College Student Exchange Program provides opportunity for eligible students in Idaho, Montana, North Dakota, and Wyoming to attend a community college at resident tuition within the three states under either of two concepts: (1) the college attended, though across a state line, is nearer the student's home than a community college in the home state; or (2) the receiving college has designated the field in which the student enrolls as a "regional curriculum." Currently 488 students are being assisted through this program, a major increase from last year's 257 students, partly as a result of the addition of four institutions in North Dakota and because Nevada students enrolled at the College of Southern Idaho are included in this year's numbers.

The Mineral Engineering Program opens opportunity for enrollment, at resident tuition rates, in geological, metallurgical, mining, and petroleum engineering and in mineral processing to residents of WICHE states in which such opportunities are not available. In 1986-87, 33 students are enrolled in three schools.

Through WICHE Scholars, any WICHE state may assist its residents in any field at any degree level, by providing the difference between resident tuition (paid by the student) and the receiving institution's nonresident tuition (in private institutions, as in PSEP, the student normally pays one-third of regular tuition and the remainder is covered by the support fee paid by the home state). Thirty-two students are enrolled through WICHE Scholars in 1986-87.

In this annual statistical report, Tables 1 through 5 provide information concerning the Professional Student Exchange Program. Information about the other exchange programs follows these tables. For all programs, further information is available from WICHE at the address on the back cover.

TABLE 1

Professional Student Exchange Program
Summary of Enrollment and Fees for Purposes of Comparison

Number of Institutions:	Public - 37	Private - 22	Total - 59

* In establishing support fees for the 1987-89 biennium, the WICHE Commission divided the 16 PSEP fields into Group A, in which a support fee related to cost of education is necessary in order that sufficient places be open to WICHE students, and Group B, in which admission is generally open to qualified nonresidents at nonresident tuition rates. In Group B fields, effective in 1987-88, the support fee is related to the differential between resident tuition (which is paid by the student) and nonresident tuition.

Regional Graduate Programs

The Western Regional Graduate Programs (WRGP) began in 1981 in Alaska, Idaho, Montana, Oregon, and Washington. With the addition of other states in subsequent years and after several program nomination rounds, by fall 1987, the activity will include 34 institutions, 109 graduate programs, and all WICHE states except California.

All states and institutions cooperate in the program selection process. Programs are selected because they are not commonly available and are found to be of quality.

The Western Regional Graduate Programs activity differs from the Professional Student Exchange Program in several important ways:

- The focus is different: The programs in WRGP are primarily in the sciences and liberal arts rather than in professional fields.
- The reciprocity agreement is simple: Participating states agree to admit WRGP students at resident tuition rates. Private institutions reduce tuition by at least one-fourth.
- Administration is entirely local: Students apply directly to the graduate programs in which they are interested, identifying themselves as WRGP candidates. No applications for WICHE or state agencies are employed.

The Western Regional Graduate Programs brochure, which lists all programs and institutional contacts, is available from Cherie Pedersen (303) 497-0224 or Richard Markwood (303) 497-0220.

ENROLLMENT SUMMARY 1986/87 (60 PROGRAMS REPORTING)

(b) includes students in the Eastern Washington Master of Social Work.

Community College Student Exchange Program

The Community College Student Exchange Program (CCSEP) is a mechanism through which four participating states (Idaho, Montana, North Dakota, Wyoming) may send and receive students on a resident tuition basis, in two categories: (1) the college attended is closer to the student's residence than a community college in the home state: (2) the program in which the student enrolls is designated by the cooperating college as a "regional program," open to students from the participating states. Some institutions extend the tuition advantage to residents of states other than the four that participate on a reciprocal basis.

With North Dakota participating for the first time, the number of students assisted through the program has jumped sharply from 257 reported last year to 488. Other factors in the increase reported are the Nevada residents enrolled at the College of Southern Idaho (64 in Fall 1986 whereas no specific number was reported a year ago), and continued growth of the program in general. Of the 16 participating colleges, 12 enrolled CCSEP students in one or the other of the two categories. For the 488 students involved, the program has provided additional choices at substantial cost savings, and may indeed have made college possible.

It may be noted that Montana, which is a primary receiver of students in the Mineral Engineering Program, is the predominant sender in CCSEP.

\# WICHE states only, not participating in CCSEP.
* College of Southern Idaho: NV - 64.
** Eastern Wyoming College: CA - 2; HI - 1; UT - 1; reported an additional 57 nonresidents enrolled at resident tuition, of whom 48 were from Nebraska and South Dakota.
*** Laramie County CC: Reported 1 resident of Texas enrolled in regional curricula.
**** Northwest CC: AK - 3; CA - 3; CO - 1; OR - 1; WA - 3.

Mineral Engineering Program

Thirty-three students from 12 WICHE states are enjoying reduced tuition charges through the Mineral Engineering Program, a program that for a dozen years has extended opportunity to residents of WICHE states to enroll, at resident tuition charges, in baccalaureate programs in geological, metallurgical, mining, and petroleum engineering and in mineral processing, in six participating institutions in Alaska, Arizona, Idaho, Montana, Nevada, and Wyoming.

Mineral Engineering Program Enrollments, 1986-87

Scholars Program

WICHE Scholars is a program through which WICHE states may extend tuition assistance to residents in programs not available in public institutions in the home state and not available in other WICHE exchange programs. The student pays resident tuition (one-third of the standard tuition charge, in private institutions); the sending state pays, through WICHE, the remainder of either the nonresident tuition charge or of the regular tuition (in private institutions). In 1986-87, thirty-two students are participating. Wyoming is the only state that regularly sends students in this program.

WICHE

Improving Education In The West

WICHE, the Western Interstate Commission for Higher Education, is a nonprofit regional organization. It helps the thirteen member states and one affiliated state to work together to provide high-quality, cost-effective programs to meet the education and manpower needs of the west. Member states are Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; North Dakota is an affiliated state.
